

BLACK PLASTIC NETTING

FOR AQUACULTURE AND MARINE APPLICATIONS

Durable, high-quality plastic netting for a wide range of fin and shellfish applications. Light weight and heavy duty diamond mesh netting is extruded in rolls for cage fabrication, fences, protective barriers, separators, raceways, pens, feeders, traps, trays and filtration. Made from durable, strong, high density polyethylene netting. They fabricate cleanly and easily. Non-toxic, non-corrosive and highly resistant to sun, salt water and chemicals. They won't conduct electricity. They are easy to clean, reusable and economical.
